

Get Your Seed Here

Quality wildlife food plots start with quality seeds. The NWTF sells Turkey Gold Strut & Rut and Mossy Oak BioLogic seed mixes through the Turkey Shoppe as part of its Project HELP program.

Whether planting multiple acres or a small patch in the woods, the NWTF has what you need at competitive prices.

Turkey Gold Strut & Rut Seed Mixes

- **Perennial Concentrate Mix** – This legume mix provides quality food and cover for wildlife, staying established for several years.
- **Special Purpose Perennial Mix** – A mixture of cool season grasses and clovers that provides food and cover for many years.
- **Southeast Fall Annual Mix** – Naked oats with Blue Lupine and German winter peas provides wild turkeys and white-tailed deer with a food source through the cooler months of the year.

BioLogic Seed Mixes

- **BioLogic Maximum** – New Zealand annual brassicas can be planted during spring or fall and provides 10 tons of forage per acre.
- **BioLogic Full Draw** – Provides nutrition to wildlife through hunting season and beyond.
- **BioLogic Clover Plus** – A perennial blend of New Zealand red and white clovers and chicory that produces large, succulent leaves for wildlife.

Give your seeds the boost they need with DeltAg Seed Coat
