

Turkey Hunters Care Program Helpful Tips & Ideas

- Ask your local grocer for help with supply and discount pricing (i.e., wholesale prices, discount prices or buy one get one free).
- Work with homeless shelters, churches, food pantries, school clubs and other civic service organizations to identify the correct recipients.
- Involve local media – let them know the National Wild Turkey Federation is doing this good deed in their community. Custom news releases are available on our Web site at www.nwtf.org/volunteers. Go to the “Custom News Release” section then click on the “Promote Turkey Hunters Care Programs” and “Follow Up a Turkey Hunters Care Event” links.
- Enclose a certificate recognizing your chapter’s commitment to this program and include it with each turkey. Certificates are available on our Web site at www.nwtf.org/volunteers. Go to the “Chapter Forms” section then click on the “Turkey Hunters Care” link.
- White plastic logo bags in which to place each turkey before distribution to an organization will be provided to all participating local chapters at **no cost**. To order bags contact Kim Saxon via e-mail at ksaxon@nwtf.net or complete the bag order form and fax (803-637-9180) or mail to Kim Saxon. Please give her your name, chapter name, shipping address, phone number and email address along with the quantity of bags needed for this program. *NOTE: Please allow at least 1-week for delivery of bags.*
- Complete and send the NWTF chapter reporting form indicating the number of turkeys distributed along with any newspaper articles and pictures. We want to tell your story and know how many turkeys your chapter distributed. Send this form to Kim Saxon no later than December 31, 2009.

It is very important that ALL participating chapters complete this form before the deadline so they will be properly recognized in NWTF publications.
